DIRECTIONS FOR USE:

DO NOT MIX WITH OTHER CHEMICALS.

Some individuals may be sensitive to ingredients in this product. Before use, read product label and safety data sheet. If questions remain, consult your employer or a physician.

1. Sort laundry by color and fabric type.
2. Always read and follow care directions.
3. From care directions, choose proper wash cycle and water temperature.
4. Do not overload washer with soiled laundry.
5. Add Laundry Sour during the final rinse cycle.
 - a. Add 4 - 6 oz. per 100 lbs. of dry laundry.
6. Check pH of wash water at the end of the final rinse stage before water drains.
 - a. Fiber and wash water pH should typically be 5.5 – 6.5.
7. Adjust usage level of Laundry Sour accordingly.

NOTE: Do not allow Laundry Sour to dry on fabric. This can lead to fiber damage of the garment.

IMPORTANT SAFETY INFORMATION:

Non-hazardous according to OSHA GHS Hazard Communication Standard (29CFR1910.1200).
See back panel of this label for precautionary measures and first aid.

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Store in cool, dry conditions in well sealed receptacles. Dispose of contents and container in accordance with local, regional, national and international regulations.

FIRST AID: IF ON SKIN: Generally the product does not irritate the skin. Immediately rinse with water. If skin irritation continues, consult a doctor. **IF IN EYES:** Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist consult a doctor. **IF INHALED:** Supply fresh air; consult doctor in case of complaints. **IF SWALLOWED:** Do not induce vomiting; call for medical help immediately. Rinse out mouth and then drink plenty of water
