N.A.C.C.

Non-Acid Coil Cleaner

Cleans evaporator coils, air cooled condenser coils, permanent filters, fan blades. Also a filter adhesive. Foamy alkaline formula effectively cleans away oil, grease and dirt from hot or cold surfaces. Non-flammable.

PRODUCT INFORMATION:

- · For heating, air conditioning and refrigeration equipment
- · Foamy formula effectively cleans away oil, grease and dirt
- Concentrate, for use on hot or cold surfaces

pH	12.5
Form	Liquid
Fragrance	Sweetish
Color	Yellow
Packaged	12/1 qt Case, 4/1 gl Case

DIRECTIONS FOR USE:

CLEANING COILS: Spray on a dilution of 1 part concentrate to 3 parts water. Wait a few minutes and flush with water. Frequent cleaning of coils will increase efficiency and reduce fuel costs.

CLEANING FILTERS: Initial Cleaning: Dilute 1 part concentrate to 3 parts water. Regular Cleaning: Dilute 1 part concentrate to 4 parts water. Soak Cleaning: Soak filters in diluted cleaner for 5-10 minutes. Remove and wash down with water under pressure. Repeat if necessary.

SPRAY CLEANING: Drench filters with diluted cleaner. After a few minutes, wash down with water under pressure.

ADHESIVE USE: Instead of oiling cleaned filters, treat with undiluted concentrate. The concentrate residue will improve filter action and ease subsequent cleaning.

IMPORTANT SAFETY INFORMATION:

DANGER

Causes skin irritation. Causes serious eye damage.

Wear protective gloves, protective clothing, eye protection and face protection. Wash hands thoroughly after handling. Do not breathe vapors. Dispose of contents and container in accordance with local, regional, national and international regulations.

FIRST AID: IF ON SKIN (or hair): Remove immediately all contaminated clothing. Rinse skin with water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
