

OXY POWER BLEACH

All-Fabric Oxygen Bleach

Eliminates fabric damage and color loss. Will not discolor whites. No anti-chlor necessary. Extends fabric life. May be used in the break, suds, or regular bleaching step without changing formula. Can be used on colored fabric.

This product is an oxygen bleach. It is a white free-flowing powder that is safer to use than chlorine bleaches. Oxygen bleach will not damage fabric tensile strength or color. It contains a fluorescent whitening agent to boost whiteness and keep fabrics looking new. It is also recommended for removing stains from colored polyester-cotton items (such as table cloths and napkins) where chlorine bleach would cause excessive color loss. It eliminates the discoloration of whites that is caused by chlorine bleach due to iron. It eliminates pin-holing and rinses freely. It is safer to use than liquid chlorine bleaches or hydrogen peroxide.

PRODUCT INFORMATION:

- Powdered oxygen bleach for commercial laundry
- Safe for all washable fabrics, including whites and colors
- Does not contain chlorine

pH.....9.8 - 10.5 (1% solution)
Form.....Power
Fragrance.....Odorless
Color.....White
Packaged.....45 lb Pail

DIRECTIONS FOR USE:

Add to the wheel or dispenser at 4-8 oz. per 100 lbs. for light soil loads. Not recommended for heavy soil applications. Should be used at 160°F. (71°C) if possible, but will work at temperatures not lower than 120°F. Bleaching time should be 7-10 minutes.

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Avoid breathing dust. Wash hands thoroughly after handling.

IMPORTANT SAFETY INFORMATION:

DANGER

May damage fertility or the unborn child. Harmful if swallowed. Causes serious eye damage. May cause respiratory irritation.

Wear protective gloves, protective clothing, eye protection and face protection. Do not eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area.

FIRST AID: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **IF INHALED:** Remove person to fresh air and keep at rest in a position comfortable for breathing. Rinse mouth. If exposed or concerned: Get medical attention.
