Concrete & Hard Surface Sealer

This specialty sealer provides the optimum of durability and chemical protection for hard surface & concrete. Fortified with urethane and acrylic polymers, produces a protective barrier that resists black marks, scuffs, scratches, and abrasions. Its uncommon durability delivers a classic "wet look" shine that reduces labor by lasting longer between maintenance cycles. This product is ideal for resilient flooring, and may be used on concrete or terrazzo. Maintenance procedures may include spray buffing, high and ultra-high speed burnishing. Outstanding for maintaining difficult "hot spot" floor areas.

PRODUCT INFORMATION:

- Urethane fortified metal-crossed-linked ultra-high speed finish
- Resists black heel marks, excellent durability
- Superior gloss level with great chemical resistance

pH 7.0 - 9.0
Form Liquid
Fragrance Acrylic
Color White
Packaged 4/1 gal Case , 5 gal Pail & 55 gal Drum

DIRECTIONS FOR USE:

Remove all old sealers, waxes and finishes with Animal™. Thoroughly detail mop so that no stripper or alkaline residue remains on floor. Allow floor to dry completely before applying. Apply thin coats with a rayon mop allowing finish to dry completely between coats. For best results, only apply four coats in 24 hours.

NOTE: Maintain floor by keeping it dust and dirt free. To remove heel marks or scuffing, apply Reflex™ restorer. After drying, burnish with high speed equipment. This finish also responds to spray buffing with conventional speed floor machines using beige or red spray buff pads. Recoat when restoration no longer returns floor to "wet-look". Before recoating, scrub floor with an auto-scrubber using Rinse No More™.

IMPORTANT SAFETY INFORMATION:

Non-hazardous according to OSHA GHS Hazard Communication Standard (29CFR1910.1200).

IMPORTANT: Do not pour unused finish back into original container. If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Store in cool, dry conditions in well sealed receptacles. Dispose of contents and container in accordance with local, regional, national and international regulations.

FIRST AID: IF ON SKIN: Generally the product does not irritate the skin. Rinse with warm water. If skin irritation continues, consult a doctor. **IF IN EYES:** Remove contact lenses if worn. Rinse opened eye for several minutes under running water. Then consult a doctor. **IF INHALED:** Supply fresh air; consult doctor in case of complaints. **IF SWALLOWED:** Do not induce vomiting; call for medical help immediately. Rinse out mouth and then drink plenty of water.
