

# WETTER WATER

## Special Blend Penetrant

This product is primarily designed as a soil penetrant to increase watering efficiency and generate deep root systems on lawns, turf, and fairways. It is also excellent as a spreading agent to enhance coverage and wetting action of herbicide, fungicide, and insecticide solutions.

Designed to increase the wetting and penetrating properties of water and suppress dusting. For general use in street sweeping, lumber yards, athletic fields, mining and construction operations. Suppresses airborne dust and dirt to create a healthier and more pleasant work site.

Also used in glass manufacturing processes for spot-free, clear rinsing of glassware.

## PRODUCT INFORMATION:

- Increases Wetting Efficiency
- Excellent For Controlling Airborne Dust and Dirt

pH ..... 6.5 - 8.5  
Form ..... Liquid  
Fragrance ..... Odorless  
Color ..... Blue  
Packaged ..... 4/1 gl Case, 5 gl Pail, 55 gl Drum

## DIRECTIONS FOR USE:

**For Dust Control:** Add or inject into hose stream at a rate of 6 oz. per 100 gallons of water pumped.

The above dilutions may vary with different methods of application. Use just enough to help penetration. Excessive rates will evidence themselves in excessive foaming and runoff.

**For Fire Protection:** This product will greatly increase the penetration of water used to fight deep smoldering fires such as cotton bale, fabric roll, furniture and dump blazes.

To Use: Inject into hose stream at a rate of 6 ounces per 100 gallons of water pumped.

### • BIODEGRADABLE •

At use dilutions, this product is: non-corrosive, non-toxic, non-flammable, non-phytotoxic.

## IMPORTANT SAFETY INFORMATION:

### WARNING

Causes skin irritation. Causes serious eye irritation.

Wear protective gloves, protective clothing, eye protection and face protection.

Dispose of contents and container in accordance with local, regional, national and international regulations.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical attention. **IF ON SKIN:** Wash with plenty of soap and water. If skin irritation occurs: Get medical attention.
